By the way please do leave a message in our [Feedback Form](#).

### Why are we passionate about chess?

Chess is a noble game in the world of sport. It is the most popular mind game in the world. The game has been played since the 6th century AD and is still fascinating the people across the globe and is the subject for medical research professionals and computer engineers. Chess game in one fun activity that exercises the brain. Just as physical exercises help a person keep his muscles

and bones fit and healthy, playing chess helps a person exercise his brain and keep it fit and healthy. Playing chess will strengthen kids mental capabilities and make brain a healthy one. A good game of chess is equivalent to a visit to the gym for having a workout of aerobic exercises. Book your [Private chess lesson](#) today and improve rapidly.
